PROJECTS

BetterNote (*Rails, Backbone*) | [live](#) | [github](#)

Note-taking/organization app based on Evernote

- Single page Backbone app built on a RESTful Rails architecture
- Implements image upload and storage with Amazon AWS S3
- Visually updates and sorts a User's notes/tags/notebooks as they are edited/created in real time

Snake (*Javascript, HTML5, CSS3*) | [live](#) | [github](#)

Snake rebuilt for the browser

- Snake is stored as a linked list, with only occupied pieces of the board updated to optimize frame rate
- Moves are stored in a Queue with a maximum length of two items, making the game completely reactive to the player

Ruby Chess (*Ruby*) | [github](#)

Command line version of Chess

- Incorporates class inheritance to keep code DRY
 - Enforces restrictions on moves based on their legality
-

SKILLS

Ruby, Rails, Javascript, jQuery, Backbone, HTML, CSS, SQL, git, TDD, Pair Programming, Python

EXPERIENCE **Project Management Intern - Konrad Group (2013)**

- Designed and implemented a custom CMS and \$1MM+ website project
 - Supervised Quality Assurance testing and reporting for several top enterprise and consumer-facing applications and websites
-

EDUCATION **App Academy - (Spring 2015)**

- Strong emphasis on code quality and design patterns
- 5% acceptance rate

Tulane University - (2010 - 2014)

- BS in Math and Computer Science
- Left before graduating in good academic standing to attend App Academy due to Tulane's lack of emphasis on Software Engineering and my desire to pursue Web Development.
